I have extensive experience teaching FCE for over 20 years.

**The courses cover every necessary aspect of a successful examination outcome.** Along with other highly experienced members of staff, we do our best to **meet the needs of the individual.** We feel this is particularly important when teaching international students online, in-class or hybrid.

Students are monitored throughout the courses and take a mock exam prior to registration for the test. They are then advised by their teacher accordingly on what they need to focus on. There are further practice tests including paired speaking practice leading up to the test itself. **Our success rates show that this approach best enables the student to fulfil their potential.**

We use a wealth of tried and trusted resources and are constantly striving for ways in which we can modify and improve our courses. I like to think that no two courses can be the same as the individuals are not the same. I always like to reassure them that whilst the course is an intensive and productive learning experience, **there will always be room for a comfortable, enjoyable atmosphere where fun is also welcome.**
