Experience Tradition, Embrace Innovation

Overview

Our Academic Year Programmes can be structured to suit each individual's requirements and a suitable study path is designed for the student based on the starting level, academic needs and learning objectives.

Flexibility is a key part of the programme allowing students to combine different modules and courses within their Academic Year Programme.

All our Academic Year students are monitored regularly throughout their programme by their academic mentor, their class teachers and the Director of Studies.

Services For Long-Term Students

Academic Mentoring:

Every Academic Year student is assigned a personal mentor for the duration of their programme. The mentor, a senior member of the teaching staff, provides academic guidance, advice and support in order to help students to make the most of their studies.

The personal mentor works together with students to help them in the following areas:

study planning

monitoring progress

course options

afternoon module choices

examination registration & preparation

study skills

career and further study opportunities

How the Mentoring Programme operates

1. The tutor meets the students in their first week of study to design a study plan and set academic goals.
2. Students have regular scheduled meetings throughout their course with their mentor to review and assess their course objectives.
3. A record is kept of each student's progress, and class teachers provide the mentors with an academic report on each student in advance of the meetings.
4. Students receive regular progress reports and a final report and certificate at the end of their programme.
5. The mentors, teachers and the Director of Studies are always available to assist or consult with students outside of the scheduled meetings.
6. Students can meet and consult with our Academic team to discuss their further study options.
