LEVELS: CEFR B1 - CEFR C1

AGE GROUP: 14+

CLASS SIZE: Maximum 16, average 10/11

LOCATION OF LESSONS: Anglia Ruskin University

ACCOMMODATION: Residence

Overview

This 2 week career focused programme introduces students to the world of medicine combining **study and clinical practice.** Taught by **acclaimed ARU professors**, students will leave with practical insights and a valuable preparation for medical studies and careers.

Discover London and Medicine gives teenagers an in-depth and hands on introduction to what it means to work in medicine. Students study the human body, investigate how diseases affect us, learn about medications and treatments, and solve real-life medical cases through interactive teamwork and discussions. They'll explore how doctors think critically under pressure, examine patients and work as part of a clinical team to reach a diagnosis and deliver treatment — all in an immersive English-speaking environment.
